

Innovators above the standards.

We study and design the most efficient and complete air conditioning solutions in the IT, TLC and industrial sectors.

We go **above and beyond standard** solutions to ensure high performance with innovative and highly customized projects.

New MSL Series

Class A multipurpose air-cooled heat pumps with scroll compressors and shell and tube heat exchangers.

Power range: 280 – 1150 kW

Available in **Super Low-Noise version**

R454B refrigerant
