

Polyvalent, silent.

New

MSL Series

Multi-purpose class A heat pumps air condensed with Scroll compressors

Power range: 280 – 1150 kW

Available in Super Low Noise version

Refrigerant R454B

- Eurovent efficiency class A in both cooling and heating mode
- Shell and tube for industrial applications
- High efficiency Scroll compressors with direct start, permanent magnet motor technology
- Available with A2L refrigerant (R454B) or in A2L Ready version
- Removable control cabinet for easy component maintenance
- Configurable hydraulic connection arrangement on three sides
